Looks like the Cameron Industrial Foundation is drawing neighbors' interest.

The Rockdale Reporter last week cited the success with which Cameron's industrializing effort has met.

In fact, it appears that Cameron's fund has reached the half-way mark about as quickly as any in Central Texas.

The last half won't come as easily as the first, however, and there will likely be a lot of effort for the final 50 big ones.

Urban Renewal -- Part V . . .

How To Determine Cost

A STAFF REVIEW
(Final Of A Series Of 5)
Assuming "Renewal Action" begins, how is cost determined? This would be of primary interest to property owners who are affected by Urban Renewal programming. It would be of interest to other property owners who will be asked to endorse community participation in Urban Renewal modernization of parts of historic Cameron.

"Discussion of Urban Renewal Activities," source for this series compiled by City Plans Commission Chairman A. W. McCullin, defines thusly:

"GROSS PROJECT COST is the total cost of carrying out all eligible operations in the urban renewal project or supporting it, except relocation payments. Gross Project Cost consists of two elements:

"Project Expenditures -- those costs paid by LPA (Local Public Agency) out of money available to it.

"Non-Cash Local Grants-in-Aid -- those costs paid for directly by the locality.

"The latter may include costs of activities which might otherwise be paid out of Project Expenditures," McCullin notes in the four and-a-half page "Discussion." He drew his material from periodicals from the Southwest Regional

Board of Urban Renewal, Fort Worth.

The non-cash local grants might include: donation of land, demolition of structures, or the provision of site improvements such as streets and sidewalks.

"It may also include public facilities to support the new uses of the project area (such as schools, police stations, libraries and parks) to the extent they serve and benefit the project, and certain statutory credits such as those relating to the acquisition of land by colleges, universities and hospitals, or the provision of land for low-rent housing project," McCullin writes.

COSTS OFFSET

He notes that "Gross Project Cost is partially offset by income received from the Disposition Proceeds derived from the sale of project land for redevelopment. Difference between Gross Project Cost and Disposition Proceeds is the Net Project Cost."

Further, McCullin notes that "under the usual formula for the sharing of Net Project Cost, the federal contribution is a three-fourths Capital Grant. The local grant-in-aid is one-fourth of Net Project Cost and is met through the local cash and non-cash contributions to the project...."

Finally, "Where local grants-in-aid are in excess of project needs,

the excess may be credited toward the locality's share of subsequent projects. This is called "pooling credit." For cities over 50,000 population, the local share is one-third and federal share two-thirds.

That is the way the cost is established and how the one to three matching ratio is determined.

The Cameron Chamber board of directors last week voted support for the program being put forward by the City Planning Commission and the City Council.

PUBLIC HEARING

Pre-vote presentations will be climaxed by a public hearing 7 p.m. Tuesday, July 5, when the program is formally discussed with public taxpayers at First Methodist Fellowship Hall.

City councilmen, the nine-member Planning Commission, Mayor Bassel Wilson, McCullin and representatives of Bernard Johnson Engineers, Inc., will discuss the prospects in even greater detail and answer specific questions.

And in about 30 days, a referendum vote could be held to test voter approval or disapproval of Cameron's entering into an urban renewal program.

The planning and organization of improvements such as the downtown mall, streets and curbing then would begin.

Story Hour Starts

At Cameron Library

Story Hour for Cameron area children ages 3 to 10 will start Thursday, June 30, at the Cameron Public Library.

Mrs. Don Humble, head of the story hour program, said there would be two groups formed for the weekly program with preschoolers (ages 3 to 6) in one group and ages 6 through 10 in the other. The story hour will be from 9:30 to 10:30 each Thursday for both groups.

Included in the summer program will be related films, games and creative activities.

EMORY B. CAMP

Services Thursday For Emory Camp

Emory B. Camp, 56, prominent Central Texas attorney and senior partner of Camp, Ellett and Camp law firm, died in a Temple hospital at 12:30 p.m. Tuesday. He had been ill for the past week and underwent major surgery Saturday.

Funeral services will be at 10 a.m. today (Thursday) at the First Methodist Church with Rev. E. J. Davis and Rev. Richard Freeman officiating. Burial will be in the Rockdale 100F Cemetery.

Camp had practiced law in Cameron since the early 1930's and owned Camp Insurance Agency with offices in Cameron and Rockdale. His career included elective posts in the state legislature and as Milam County district attorney, and a three-year term on the board of directors of Texas State Bar Association.

Born in Rockdale July 10, 1909, Camp received his law degree from the University of Texas and entered practice with his father, E. A. Camp who died in 1961. They had offices in Cameron and Rockdale.

Camp served in the Texas legislature from 1932 to 1935 and was district attorney for Milam County from 1935 to 1939. He was in the U. S. Navy during World War II.

He was active in local, state and national Democratic Party po-

itics. He served on the Milam County Democratic Executive Committee, was a member of the Texas Electoral College in 1969 and was a voting delegate to the National Democratic Convention in 1964.

Camp was a member of the Milam County Bar Association, the Texas Bar Association and the American Bar Association. He was a past director of the State Bar and was active on several state bar committees until his death.

He was a past president of the Cameron Chamber of Commerce, a member of the Knights of Pythias, Masonic Lodge and the First Methodist Church of Cameron. He also served as a director of the Rockdale State Bank.

Surviving are his wife, Mrs. Emory B. Camp of Cameron; two sons, Emory C. Camp of Rockdale and James D. Camp of Cameron; a daughter, Mrs. H. J. Johnston of Pittsburgh, Pa.; and three grandchildren.

The body will be at the family home, 2005 N. Harding, until 8 a.m. and will lie in state at First Methodist Church from 8 a.m. until the funeral hour.

Pallbearers will be W. P. Hogan, H. H. Coffield, Grady Allen, John Davis, Hilliard Thomas, Harold Luckey, Boswell Newton, Dana Kestenbaum, W. T. Pearson and Lester Williams.

Marek Burns Funeral Home is in charge of arrangements.

Group To Plan Funding Useage

Milam County Community Action Program executive committee members will meet Monday to recommend a director and select administrative office space for the approximate \$140,000 Economic Opportunity program being initiated here.

At a meeting of the 65 member governing board last Thursday, R. W. Wells was elected chairman of the board of directors. H. D. Maxwell, County Superintendent of Schools, has served

as temporary chairman during the program's organization.

The program, which operates under the Office of Economic Opportunity, is designed to train or provide certain services for economic needy.

Maxwell said examples of what the program could do locally would be adult vocational training or nursery facilities for working mothers who could not afford child care.

He emphasized that it was not a "give away" program, but one that would enable unemployable adults to earn a living wage. He pointed out that some under this category would be former farm laborers left unemployed by automation.

Maxwell said that vocational training or services to be offered would be determined by a survey of actual needs in Milam County.

Vocational courses would follow survey indications of what skilled jobs were available and other services would be started in the same way.

He added that although \$140,000 had been earmarked for Milam County, the actual appropriation would be determined by final program plans.

Serving with Wells as executive committee officers will be O. T. Bullock, vice chairman; Lawrence Zolt, secretary; Frank Kemble, treasurer.

Executive committee members are G. R. Varner, Gause, Frank Kemble, Thorndale; E. C. Westbrook Jr., Milano; Vernon Dungan, Buckholts; Stanley Sultemeir, Rockdale; Barton Sutton, Rockdale; Julius Whiteside, Cameron; Anton Mendoza, Cameron; Spud Caywood, Rockdale; H. D. Maxwell, Rockdale and Rev. Vernon Appel, Thorndale.

Maxwell said that Bert Adams, program consultant, Texas Office of Economic Opportunity, Office of the Governor, Austin, will meet with the executive committee Monday.

Council Approves Equalization Report

Cameron City Council approved a report of the 1966 Board of Equalization at their meeting Tuesday night and discussed applications for the position of Police Chief. No decision was made about a successor for Elvin Hoskins who resigned June 4.

City Secretary Buddy Fuller said tax revenue would remain about the same according to the report filed by Equalization Board members August Kunz, W. F. Lucas and Joe Heitman.

Department work reported included the laying of 300 feet of 6 inch water line and fire hydrant on East 18th street between N. Hoover and Cleveland and 350 feet of 6 inch water line on West 12 street. The W. 12th street water line will extend between Emancipation and Vogelsang when completed.

Wolfington To Manage Safeway

Charles (Chuck) Wolfington has been appointed manager of the Cameron Safeway Store succeeding S. D. Ripley who has been promoted to manager of the Lake Air Safeway Store in Waco.

Wolfington assumed management of the local store Monday. He has been assistant manager of Safeway at Marlin for the past two years and before that had been with Safeway in Bryan for 7 years.

Wolfington, who is originally from Normangee, his wife Dianne and sons, age 4 and 6, will move to Cameron as soon as housing is available.

Ripley will officially become manager of the Lake Air Shopping Center Safeway on July 9.

He was named manager of the Cameron store in 1954 when it was located on West Main and directed the move to the new building in 1957.

The move to Waco will be a

return home for the Ripley's whose families both reside there.

Miami U. Names Yager To Head B. Adm. School

OXFORD, OHIO — Dr. E. Ben Yager will replace Dr. C. Rollin Niswonger as chairman of the Department of Accountancy in Miami University's School of Business Administration effective July 1, Miami President Philip R. Shriver has announced.

Dr. Yager is the son of Mr. and Mrs. E. B. Yager, Route 4, Cameron.

Dr. Shriver said Dr. Niswonger, member of Miami's business administration faculty since 1935 and head of the accountancy department since 1947, had asked to be relieved of the chairmanship but plans to continue teaching. Both Yager and Niswonger hold full professorship.

Yager previously has been acting chairman in Niswonger's absence, including the January-April semester of this year when Niswonger was on leave of absence for a trip to New Zealand and various Pacific Islands.

Yager, member of Miami's faculty since 1955 and full professor since 1963, had been chief accountant at Sol Ross State College and had worked part time with The Texas Company and in the Texas State Auditor's Department before coming to Miami. He earned bachelor's and master's degrees at the University of Texas, and received the Doctor of Business Administration from Indiana University in 1957. He holds Certified Public Accountant's certificates in both Texas and Ohio.

TAKE YOUR PROBLEMS TO CHURCH Millions Leave Them There!

THE WORK BENCHES OF GOD

Christians are not turned out on assembly lines.

The skill and patience of many a human soul, the blueprint of Christ's own example, and the unseen but mighty craftsmanship of the Creator Himself—these over the decades bring forth a noble Christian life.

There must be understanding, guidance, faith. There must be a Christian home with sincere, loving parents. There must be prayer, the Bible, worship, thought, study. And at length practice and persistence must win many a victory over self before the world begins to recognize the hand of God in the life of a man.

Nearby in the church you will choose, there are busy hands at the work benches of God.

And room for more—your child's and your own!

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Hustlers Hold Minor L Lead

The Minor League Hustlers, the team that won first place last year in the minors, are leading again this season after one full round of play at Cameron Little League Field.

Going into the second out of three rounds Tuesday night, the White Socks conceded a loss to the Hustlers in a 12-7 game. Randy Sapp was winning pitcher for the Hustlers. The socks almost pulled out of their slump in the last half of the 5th inning when Robert Plachy hit a grand slam homerun. Darrell Matula, Mike Mueck and Plachy shared pitching-catching chores.

In other action this week, Monday the Lions defeated the Yankees in a 16 - 2 ballgame. Nehimias Rangel, Gene Kopriva and Gary Hornung pitched for the Lions.

Historic Markers . . .

Official recognition of three historic sites in the Cameron area inaugurates what should be a significant, and certainly overdue, program in the recovery of historic Milam County.

The site of Sul Ross' home, the George Green residence and Little River Baptist Church all share a role in Milam history and the former two in Texas history.

Recognition by the Texas Historical Society serves two purposes: one, to create proper recognition for places of meaning to this area of Texas, and two, to recreate and dramatize for visitors and residents alike the Milam portion of Texas history.

CIF Fund Clears Halfway Mark . . .

The Cameron Industrial Foundation went over the halfway mark in its drive for a \$100,000 goal.

Some 80 or more individuals and businesses thus far have made possible this quick effort to the halfway mark.

It is credit to this community, among all the other efforts for its improvement, that response has been enthusiastic.

Broader Library Program . . .

Cameron Public Library now has 90 additional reference books, a gift from the State, and 250 additional children's books on loan from the Texas Library.

Book committeemen now are planning work sessions to buy additional volumes to bring Cameron's library up to its modern "snuff."

Contributions in memorials still will mean additional new books. And contributions of usable books from Cameron area residents will be appreciated.

Student Test Results Ready

Standardized test results, with interpretation, will be available for parents of 1st through 8th grade students to review according to Dr. Herman Brown, principal. The test results will be in the Ben Milam School from 8 a.m.

to 5 p.m. Monday, June 27.

Dr. Brown said the tests show the students percentile ranking against a national norm and tell how well they have achieved in reading, language arts, math and social studies.

Dr. Louis C. Jones, director of the New York State Historical Society, recently was quoted, saying:

"Progress goes from some place to some place, and if we would know where we are and where we are going, we must also keep a few points on the chart to indicate where we have been."

These historical plaques must be authorized by the State after the facts of the Sites have been authenticated.

It is well that Cameron and Milam County are recounting and citing those structures and places before they are reduced to insignificance by indifference.

tic.

But there are more than 80 businesses in Cameron and there are hundreds of individuals who have their futures staked in the Cameron that will be.

Should they join those who have already pledged and contributed, the success of Cameron industrial development is that much more assured.

And planning is underway for children's "reading hours" for July and August to show the new facility to good advantage.

As well, other displays will be held periodically in Cameron Public Library, much like the art show held there on opening day.

These efforts are to give dimension to this new library, proving that a library is an integral part of the community life of any age group.

Hike Seen In Insurance Rates

By Vern Sanford

AUSTIN — Auto insurance rates in Texas may rise an average of \$2.11 a year per motorist.

State Insurance Board is weighing testimony given at a public hearing on rates last week. Decision probably will be announced soon, since new rates usually are effective August 1.

Look for these rate changes if the Board follows staff recommendations.

Liability (bodily injury and property damage) up 11.9 per cent. Private passenger \$50 deductible collision, up 2.4 per cent.

Full comprehensive coverage, up 0.3 per cent.

Private passenger \$50 deductible, comprehensive coverage, up 17.7 per cent.

Rates of course, will vary widely among 26 rating districts.

Among strong recommendations to the Board were:

A driving record classification plan to reward the safe driver with lower rates and hit the "bad" driver with higher premiums.

A more flexible rate schedule for drivers under age 25 — with highest rates for young males of 17.

A private passenger classification plan to produce a lower rate for drivers with less exposure to accident conditions.

A means by which a driver in the "assigned risk plan" could purchase additional coverage over normal \$10,000 - \$20,000 limits.

Board earlier announced it was considering feasibility of requiring companies to write an equitable portion of all lines and classes of insurance in order to provide coverage for drivers over 65 and under 25 who face increasing difficulties keeping policies in force. FRUIT FLY REPORTED

First Mediterranean Fruit Fly has been discovered in Texas — in Brownsville area.

Agriculture Commissioner John White said the dangerous pest has been positively identified. Medfly can cause economic loss by stinging or implanting eggs inside fruit, causing widespread spoilage.

Total of 15 inspectors from Texas Department of Agriculture and U. S. Department of Agriculture Plant Pest Control Service have been sent to the Valley to place an additional 1,000 traps and determine extent of infestation.

White assured Valley citrus growers that treatment of any affected and susceptible orchards will follow immediately to insure complete eradication. He noted that past Medfly outbreaks in Florida have been successfully checked.

COURTS SPEAK

State Supreme Court held that Big Spring must stick by 1937 contract in which it agreed to provide as much as 300,000 gallons of water a day to Big Springs State Hospital for 10 cents a thousand gallons.

Supreme Court agreed to review a San Antonio malpractice suit involving a physician's obligation to warn a patient of all dangers of an operation. Patient in the case lost his hearing after an operation, claimed he didn't understand all dangers involved before he agreed to surgery.

HEALTH RULES ADOPTED

State Health Board has adopted tentative rules governing standards for frozen desserts sold in Texas and regulations to check disposal of wastes from boats.

Dessert rules apply to ice cream and substitutes, sherbets, water ices, ice milk and other products. A public hearing on proposals will be scheduled later.

Proposed watercraft regulation would require holding tanks for all marine toilets on boats. Sewage could be removed only by

pumping it into onshore facilities. Rule also would outlaw boatsmen throwing garbage, rubbish and litter into waters. Aim is to prevent water pollution.

APPOINTMENTS ANNOUNCED

Thomas E. Riggs of Waco and Clifton B. Drinkard of Eden will be director and assistant director of the new Veterans Administration Data Processing Center in Austin. Center will have more than \$3,000,000 worth of data processing equipment to serve the nation's 165 VA hospitals and 26,000 veterans.

Dr. Jim W. Tunnell, director of instruction for McAllen Public School system, has been named project leader for Governor's Committee on Public School Education. He will head an evaluation of educational programs in Texas public schools.

OIL PRODUCTION REDUCED

Because of gloomy testimony and statistics, the Texas Railroad Commission again has reduced Texas oil production after a statewide prorotation hearing.

July order will hold prorated wells to 33.3 per cent of total ability to produce. This is down 1.2 per cent from June's rate and 1.7 per cent below the April high of 35 per cent.

A recalculation of the actual oil production resulting from the July cut-back produced an estimate that it will be 2,734,335 barrels a calendar day from allowables of 3,118,042 barrels a day. Translated into actual barrels

Diplomatic Pouch

WASHINGTON, D.C. The following letters were recently answered by the Department of State.

We received the enclosed card from the U.S.S.R. requesting copies of our magazine to be sent to this particular Russian government agency, the Institute of Scientific Information.

We are checking to find out what the policy of our Government is in relationship to dealing with Communist countries. Should we send copies of our magazine or would you suggest we just ignore the request?

N. D.

Lynbrook, N.Y.

Dear Mr. D:

The Institute of Scientific Information is an organ of the Academy of Sciences of the USSR. Like the Academy itself, it is controlled by the Soviet Government.

The question of sending periodicals and other literature to this Institute is, of course, one for your organization to decide. There would be no restriction on sending information which is published for public consumption in this country.

The Department of State does not, however, see the benefit which would be gained by your organization from such a one-way transaction, unless you could receive useful scientific and technical information from the Institute of Scientific Information in return.

I am a senior at college and preparing for student teaching. I will be teaching World War I and II at the high school level. Could you please send me some materials that I could use in my classrooms?

Dear Miss Z:

Enclosed is a copy of Department of State publication 7343, "Major Publications of the Department of State: An Annotated Bibliography," and Price List 50, "American History," of the Government Printing Office. If you wish to order any of the items listed, Price List 50 includes instructions and, at the back, an order blank. of oil in the pipelines, the new production figure is just below the 2,749,135 the wells produced in January.

SHORT SNORTS

Atty. Gen. Waggoner Carr has ruled that a salvage dealer must, upon demand, surrender license plates and certificates of titles to motor vehicles obtained for scrap disposal, resale or any sort of salvage.

Texas Supreme Court ruled that Texas Highway Commission may dispose of unused right-of-way and that land does not revert back to original owner.

A "Visitor Center" will be built by the Texas Highway Department at the Judge Roy Bean Museum at Langtry in Val Verde County.

OLD PHILOSOPHER

Dear editor:

According to an article I read in a newspaper which fell out of a tourist's car on the road near my Johnson grass farm the other day — he was bound to be lost, there's nothing out here to see, no hotdog stands, no junkyards, no traffic jams, no road repairs, no big billboards, no motels with "No Vacancy" signs — the United States is concerned about the number of people planning on traveling abroad this summer.

Last summer two and a half million Americans went to Europe and spent nearly 2 billion dollars. This summer the figure will be even bigger, and what worries Washington is the drain on the U. S. dollar. The tourists leave money over there, the Europeans see to that, and once a foreign country gets hold of an American dollar, it never gets back home. Europe argues this is fair, since the Americans are bringing

You may obtain pictures of World War II for a fee from the United States Army Photo Agency, Office of the Commander, Room 5A-470, The Pentagon, Washington D.C. The New York Times has published a one-volume history of World War I in pictures, and Life magazine has published a similar two-volume history for World War II.

culture back with them, but this is debated in some quarters and actually has never been proved. Oh I guess they pick up some and start back with it, but by the time they reach their home towns it seems to be gone. I've heard of some who've gone over every summer for years without ever getting back with any.

Now to offset this, one proposal in Washington is that we get Europeans to travel over here, spend their money with us, and balance the thing out. In order to get the ball rolling, a committee has suggested that we help the Europeans finance their trips, by paying say 20 per cent of their hotel bills, part of the plane fare, part of their meals, etc.

This seems to be a sound approach, historically speaking from a foreign policy standpoint, although I believe the hotels, airlines and restaurants would come out better with less work if the government just paid them their 20 per cent outright and everybody stayed at home.

Even if we paid 20 per cent of the expense, I can't imagine any European wanting to come over here and look at me, and this goes for one or two others around here I could name. As for me, I don't plan to go abroad this summer and upset the dollar balance. Time I make it into Cameron once or twice, I'm played out and my dollar's gone.

Yours faithfully,

J. A.

Our Obeying Drug Laws
Protects You From Harm

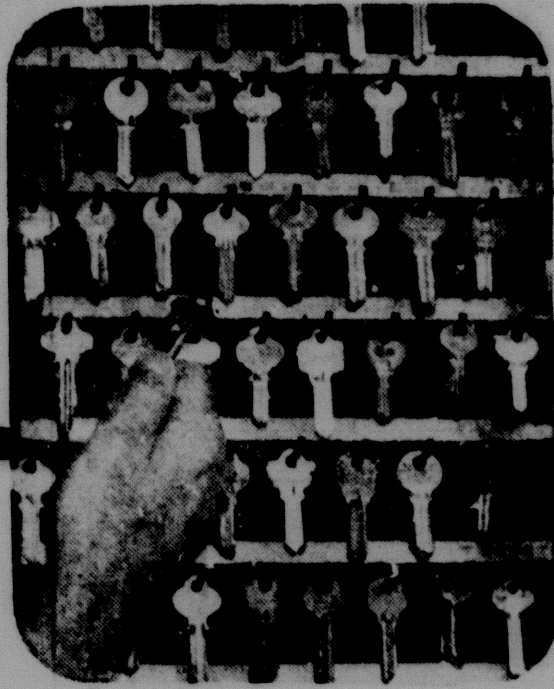

Most of today's prescription medicines can be depended upon to produce a desired benefit. That is why no sickness should terrify you. Your physician can prescribe medicines which can cure or give relief from distressing symptoms. Because some drugs are very potent, there are laws regulating the refilling of a new prescription from the physician. Others can be refilled as often as the physician specifies on the prescription.

We obey these laws. They are for your benefit. Your health comes before profits. When you ask us to refill a restricted prescription we will be glad to phone your physician for instructions. Whatever he directs, we will do.

YOUR DOCTOR CAN PHONE US when you need a medicine. Pick up your prescription if shopping nearby, or we will deliver promptly without extra charge. A great many people entrust us with their prescriptions. May we compound yours?

Ceremony Unites Miss Sportsmen, Brian L. Harbour In Kansas City

Miss Janet Dee Sportman became the bride of Brian Lee Harbour in a double ring ceremony June 13, 1966 at the Linden Baptist Church in Kansas City, Missouri, with the Rev. Shirl D. Davidson officiating. The bride is the daughter of Dr. and Mrs. Weldon L. Sportman of Kansas City and the groom is the son of Mr. and Mrs. Ernie F. Harbour of Rogers.

The setting for the wedding was made by white columns topped by Grecian urns filled with white stock and snap dragons. The bride was given in marriage by her father, Miss Nancy Svenson of Clifton was soloist.

The bride wore a long sleeve formal gown of faille satin and reembarbed alencon lace. The bodice featured a high Italian neckline and the rounded chapel train fell in soft folds from the natural waistline in back. Her floor length veil of English silk illusion was attached to alencon lace pillows, pearl trimmed with chignon effect of rose buds and leaves.

Mrs. Louis O. Richardson of Gladstone, Missouri, was matron of honor; Miss Ann Trotter of Gladstone was maid of honor. Bridesmaids were Mrs. James A. Hess of Kansas City North, Miss Joy Wilsey and Miss Nancy Curtis both of Tulsa, Oklahoma; Miss Johnnie Hughes of Lone Oak, Texas; Miss Judy Ray of Greenville, Texas; Miss Barbara Freeman of Houston, Texas; and Miss Donna Sue Croach of Little Rock, Arkansas.

Attendants wore sleeveless floor length gowns of silk linen in varying shades of pink and carried baskets of roses and daisies.

CEREMONY AT BASTROP UNITES MISS MARY HUTH, JOHN LAWHON

Miss Mary Ethel Huth, daughter of Mr. and Mrs. Philip N. Huth, Bastrop, and Mr. John Thomas Lawhon, son of Mr. and Mrs. John W. Lawhon, Cameron, were married at 3 p.m. June 11 in the Ascension Church, Bastrop.

Rev. Louis J. Wozniak officiated at the double ring ceremony.

Given in marriage by her father, the bride wore a gown of candlelight peau-de-soie with pearl beading on the fitted bodice and a bell shaped skirt with chapel train. She wore a mantilla of illusion edged with lace and carried a bouquet of white roses with ivy.

Miss Frances Work of Austin was maid of honor and Mrs. Frank Myrick of Houston was matron of honor. Bridesmaids were Miss Lucy Sandifer of Elgin and Miss Kay Barclay of Lubbock.

Attendants wore a floor length gowns of turquoise peau-de-soie with matching turquoise lace mantillas. They carried pink roses and carnations.

Sameul Lawhon, brother of the groom, was best man. Grooms-men were Philip Huth of Corpus Christi, Johnny Moseley and Elliott Crook of Cameron. Ushers were Charles Huth of Bastrop and Stanley Sommers of Bryan.

The bride's mother wore a beige brocade dress with pink accessories and cymbidium orchid. The groom's mother wore a blue linen sheath with lace duster and matching accessories. She also wore a cymbidium orchid corsage.

A reception was held in the parish house immediately following the ceremony.

Assisting in the houseparty were Miss Carol Ann Crook, Cameron, Miss Becky McCreery of Elgin, Mrs. Harvey Mitchell of Dallas, Mrs. Kenneth Felps of Austin, Miss Verna Frerich and Miss Betty Frerich.

The couple will make their home in Taylor. Mr. Lawhon is employed at Alcoa, Rockdale, and

Pre-Nuptial Tea Honors Bride-Elect Of Mr. Bill Hensley

Miss Patricia Maxwell, bride elect of Billy Hensley, was honored with a prenuptial tea in the home of Mrs. J. A. Bowling Saturday afternoon. Cohostesses for the event were Mrs. Wm. F. Arthur, Mrs. C. W. Hodson and Mrs. R. M. Clark, and Mrs. J. A. Bowling.

Guests were greeted by Mrs. Bowling and received by Miss Maxwell, her mother Mrs. P. F. Maxwell, and Mrs. Roy C. Hensley, mother of the prospective bridegroom.

Miss Ann Arthur was in charge of guest registration.

The house was tastefully decorated in the brides chosen colors of blue and white. A blue and white topiary tree graced the doorway leading into the dining room. Arrangements of white spring flowers were displayed throughout the house.

The refreshment table was laid with a blue moline cloth over satin, and was centered with an arrangement of white gladiolas. Appointments were of crystal and silver.

Miss Sarah Arthur presided at the crystal punch bowl, and Miss Christy Clark served the cake squares.

The wedding is to be July 2, 8 p.m. in the Community Church in Rio Hondo, Texas.

Beckhusen Home Is Scene Of Bridal Tea Feting Miss Schiller

Miss LaVerne Schiller, of Temple, bride elect of Howard Von Gonten of Buckholts, was honored with a Bridal Tea Saturday, June 18, at the home of Mrs. Wilburn Beckhusen in Buckholts.

Seventy-one guests were registered in the bride's book by Mrs. Evelyn Jungmann, sister of the bride. A miniature bride doll of lace handkerchiefs was used as a center piece.

In the receiving line were the honoree, her mother, Mrs. Jerry Schiller of Seaton and Mrs. Carl Von Gonten, mother of the groom.

The serving table was laid with a linen cutwren cloth, centered with an arrangement of aqua carnations, the brides chosen color. Tall tapers were used in crystal candleholders, Miss Janet Laffere of Thorndale served punch and Miss Judy Beckhusen of Buckholts served ice cake squares. Appointments used were of crystal.

Miss Carolyn Gonten, sister of the groom and Miss Susan Abel of Sharp helped in displaying gifts. Becky Shenkir and Becky Beckhusen helped in serving guests.

The honoree and mothers were presented with corsages by the hostesses.

Hostess for the occasion were Madames Harold Fuchs, Johnny Fuchs, Willie Glaser, Delfin Schiller, Barbee Barrett, Wilburn Beckhusen of Buckholts, Ervin Niemtsch of Thorndale and Henry Abel of Sharp.

The couple will be married June 25, at the Hope Lutheran Church of Buckholts.

Parties In Houston Honor Miss Lippman, Richard L. Doehring

Recent parties in Houston honored Miss Suzanne Lippman, bride elect of Mr. Richard Lee Doehring.

An arrangement of split chrysanthemums decorated the luncheon table for a party honoring Miss Lippman on June 4 at River Oaks Country Club.

Mrs. Fred Reno and her daughter Mrs. Roy Howard III were hostesses and presented the honoree with a goblet of her chosen crystal.

Mrs. John Wilcox honored the bride-elect with a party at the Forest Club Friday, June 17. Forest Club Friday, June 17. Guests included friends of the prospective bride-groom's grandparents, Mr. Hall Etter of Houston and the late Mrs. Etter.

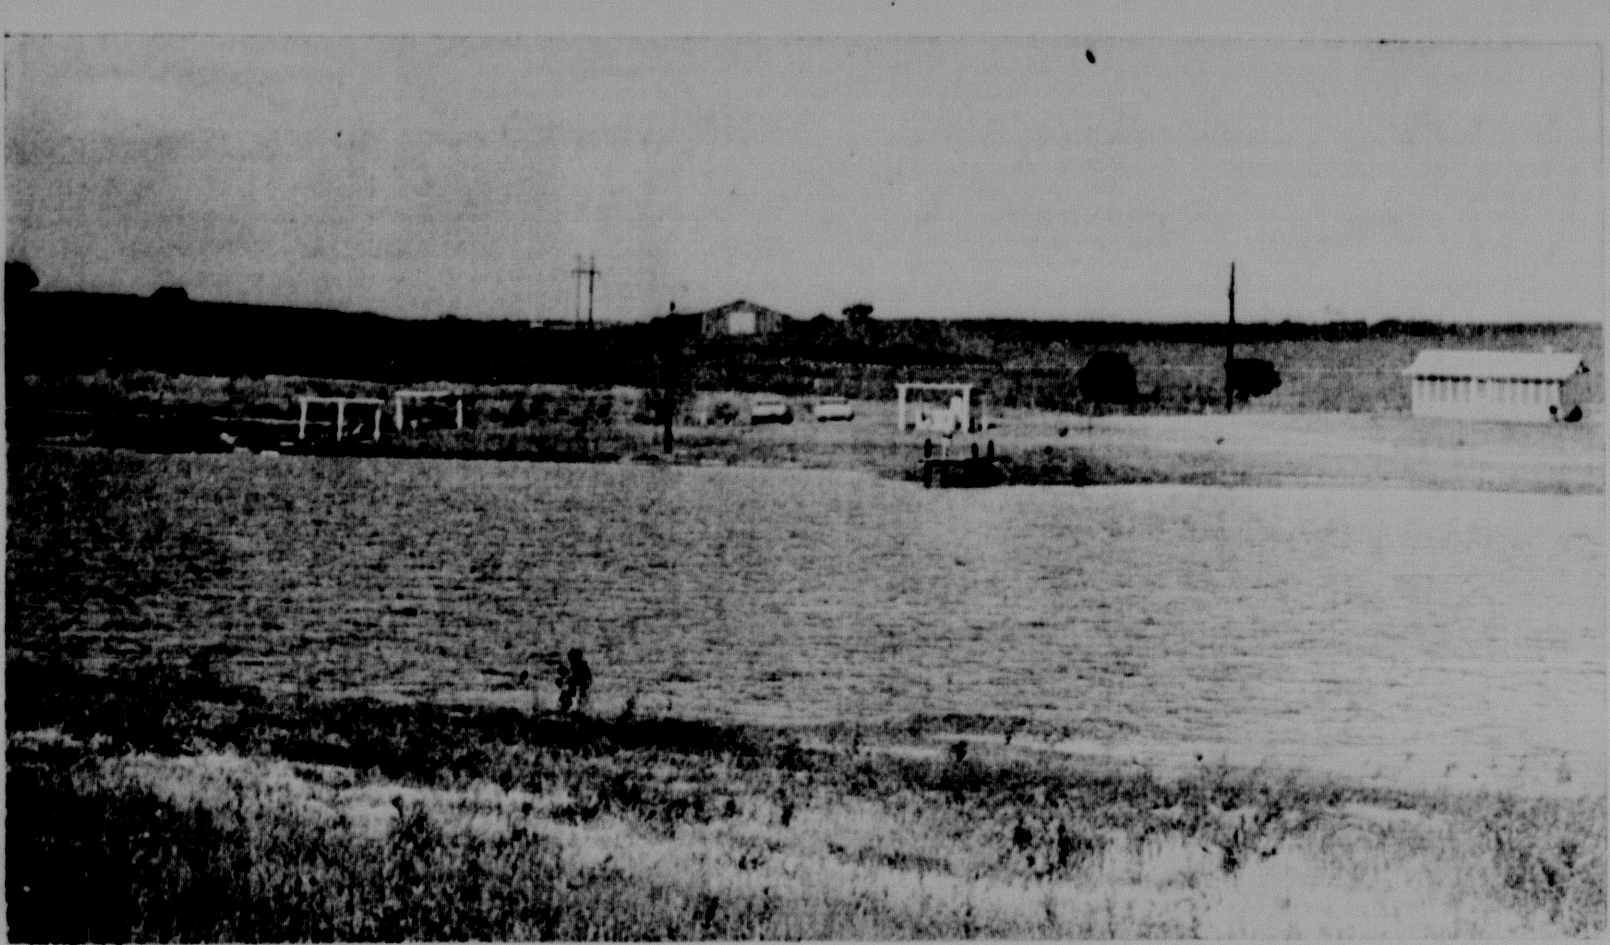

Decorations for the party included a centerpiece of split chrysanthemums and roses topped with small umbrellas and flowered sachet place favors.

The bride-elect was presented with a corsage of orchids and a silver cake server engraved with her wedding date.

A dinner party that night at the home of Mr. and Mrs. Aubrey Calvin of Houston ended with a surprise gadget shower for the prospective groom.

Titled a "backwards shower", table decorations carried out the theme with assorted spring flowers on rolling pins surrounded by up-side-down miniature umbrellas.

Miss Lippman and Mr. Doehring will be married July 3 in the Margarite B. Parker Memorial Chapel, San Antonio.

Crop Prospects: Good To Fair

By J. D. Moore
Milam county crops are promising in the Thorndale, Sharp, San Gabriel, and Clarkson areas. Fields in these areas were less affected by the heavy rains and overflows that occurred in April and May. The cotton has a more uniform planting date, is near knee high, and is fruiting well. The maize crops in these areas did not suffer so much from the excess moisture, is heading and promises a good crop.

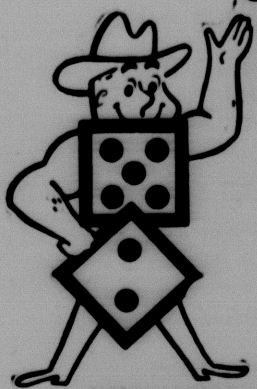

Through the central part of the county, along the low lying bottom lands, cotton had to be replanted, is late and will be difficult to withstand the high temperatures and late insect damage. The maize crop is uneven in plant size and growth. This is due to unfavorable growing conditions in April and May. The maize and corn are retarded in growth and are very uneven in plant size.

Air Circulation in the Soil - Internal drainage is necessary because corn and maize roots must have air and very little air can get into a soil that is water logged

or that is "run together". Corn roots will not penetrate a soil that is not porous enough for air circulation. Air in the soil is absolutely necessary for maximum absorption of plant nutrients and water and for normal root growth.

The corn crop will be less than 50 per cent of normal throughout the county. According to the crop reporting service, Milam county harvested 19,000 bales of cotton in 1965 from 37,700 acres of harvested cotton. The cotton acreage will be down this year even more than last year. We anticipate a maximum of 30,000 acres of planted cotton and even a lower acreage of harvested cotton due to several reasons.

Beef cattle production is having a good year with markets, grass and numbers favorable in Milam county. A rather mild winter gave cattlemen a good send off this spring. Income from beef cattle will be the major "bread winner" in 1966. Dairying continues good, poultry has shown growth and hog prices will keep our swine men in business.

Research And Promotion

Changing Cotton Future

WACO, JUNE 14 - Use of an additional 755,000 bales, requiring an average of 638,000 acres to produce, could become a reality if cotton takes full advantage of its opportunities in just one market - rugs.

This was one of many examples cited here last night of how cotton can benefit greatly from expanded research and promotion effectively administered by growers. Peary Wilemon of Maypearl, producer delegate to the National Cotton Council from this area, presided at the meeting of Central Texas cotton industry leaders.

"The only way we can protect and expand our markets, acreages, and income is to get more cotton used in rugs and hundreds of other products," Mr. Wilemon said.

He added: "Our research and promotion needs have been blueprinted, and we have trained people to operate our programs. What we desperately need is adequate funds to cash in on our opportunities."

Explaining the grower-developed research and promotion proposal (JHR-12322) would provide such funds, Mr. Wilemon urged all who have a stake in cotton to support and work for approval of the plan.

He said farmers, processors, and cotton communities cannot live with the acreage reduction - averaging 30 per cent this year - that necessarily accompanies a record carryover of cotton.

Details of cotton's present battle for survival and the grower proposal were spelled out by Robert Love, Memphis, and Earle Younts, Lubbock, of the Council's field service department.

A report on current programs revealed research financed by the Cotton Producers Institute is helping cotton make a comeback in permanent press markets involving several million bales of cotton a year.

It also was explained that CPI's award-winning promotion is attracting strong merchandising support from garment manufacturers and giant retailers such as Sears. Statements from firm executives attesting to the fact that promotion is selling products in volume were read at the meeting.

The speaker, however, added: "While cotton has the strongest and finest programs in its history, they simply are not enough."

It was pointed out 14 giant synthetic producers are spending five times as much as cotton on research and \$17 to each dollar cotton spends on promotion.

As a result, nylon, dacron, and other higher-priced synthetic fibers now have a total market equalling nearly 7 million bales of cotton. More than 2 million were gained in the last two years, and new synthetics plants with capacities equivalent to 3.5 million additional bales are scheduled for production by the end of next year.

Cotton doesn't necessarily have to match total dollar efforts by synthetics producers. One reason is that they are fighting each other for markets, and another is cotton's proven ability to re-

New Travel Brochure Features Texas - 'America's Fun-tier'

AUSTIN
The immense variety of Texas pleasure travel is portrayed in an entirely new edition of the popular travel brochure, "Texas - America's Fun-tier," released this week by the Texas Highway Department.

The 32-page color brochure incorporates maps, photographs and art work in a glossy, magazine-style format. It provides the traveler with a short, vivid course in speed with colorful pictorial glimpses of things to see and do in the "Friendship State."

So vast is Texas, the new brochure divides the state into six recreational regions, focusing on attractions which are depicted by caricature maps, drawings and photos. Designed to give equal representation to all parts of the state, the new publication illustrates a cross section of Texas vacation variety. Historical, amusement and recreational features are portrayed in each section, outlining a brand of fun for everyone.

Also included are informational sections on hunting and fishing, highway regulations and tourist services provided by the Texas Highway Department.

Nearly a million free copies of an earlier edition have been distributed since its introduction some three years ago. Demand for the new publication is expected to be even larger.

HEARING TESTS SET FOR CAMERON

Free Electronic hearing test will be held in Cameron. Anyone that has a hearing problem of any kind is welcome to come in for the test.

Picture of the ear showing how the ear works and why a person loses his hearing, also the nerve system of the ear that is connected to the brain, to tell us what we have heard. Each person is tested with the latest electronic machine that can pinpoint in what part of the ear Mr. Treadway they have hearing trouble and what can be done to help them.

Each person can see how a simple operation on the ear has let thousands of people hear again. How the new electronic device is helping thousands of people with the dreaded NERVE DEAFNESS to hear again. How 2 year old children are being fitted with aids and can learn to hear and talk. How packed wax in the ear canal affects the hearing. How head congestion affects the hearing.

Everyone should have a hearing test at least once a year if they have any hearing loss. Even people that wear Hearing Aids should have a test. People that have been told that nothing could be done for them should have a test each year, as new ways are being discovered to help these people.

The test in Cameron will be held at the Right Hotel, Tuesday, June 28th from 10 a.m. to 12:00 p.m.

Mr. Treadway, who is an Audiologist will conduct the test through the courtesy of the Temple Hearing Center at 129 N. 3rd St. in Temple.

If you miss the test you may come to the Temple office on any Thursday or Friday between 9 a.m. and 5 p.m. and take your test.

TOO MANY FACTS

Sculpture is subtraction. The figure takes shape as the artist, wielding his chisel, cuts away from the block all that is surplus.

Something similar happens in a trial. The issues take shape as the judge, wielding the rules of evidence, seeks to cut away whatever is surplus — facts that are not "relevant" to the case. The purpose is to remove those facts that are not important, the better to see those facts that are.

Which facts are relevant? Basically it's a matter of common sense, applied to the circumstances of the individual case. Thus, in a murder trial, the fact that the defendant owned a gun might well be relevant — but not if the slaying was done with a dagger. For then, ownership of the gun would have no logical connection with the murder.

Even if there is a connection, a fact may be held irrelevant if the connection is too slight. Consider these examples:

In an assault case, the court ruled out evidence that the defendant was found drunk — a considerable time after the crime had been committed.

In a theft case, the court ruled out evidence that the defendant often used profanity.

In an abduction case, the court ruled out evidence that the defendant knew a man who had a police record.

Each of these rejected facts might have been interesting enough as a conversational tidbit. But none of them shed much light on the issues before the court. Worse, they could easily have had a prejudicial effect on the minds of the jurors.

To the person on the witness stand, it is often frustrating to be hemmed in by rules of evidence. His instinct may be to tell his story, wide-open style, just as he would at the dinner table.

But, besides the danger of prejudicing the jury, there is the practical necessity of curbing people who can't seem to stick to the point. Too many witnesses resemble the fellow of whom Abraham Lincoln once said:

"He can't compress the most words into the smallest ideas of any man I ever met."

With people like that turned loose on the witness stand, the business of justice might never get done.

LIGHT WEIGHT RATIONS
Experienced sportsmen, out for only a day or two, do not tire themselves by lugging along a lot of heavy cooking stuff. Instead they package a supply of raisins, chocolate chips, and nuts before leaving home. Secured in a plastic bag, these eatables afford plenty of concentrated nourishment that is light to carry.

And of course Texas "jerky" can't be beat for energizing, concentrated food.

OUTDOOR TIPS -

SALT AND PEPPER STRAWS
For camping conveniences and space-saving purposes, make individual salt and pepper shakers by filling ordinary sodapop straws. Pinch one end of straw closed, pour in salt or pepper, then pinch other end closed. Place one strawful of each condiment beside each plate.

REPAIRING WADERS
When your fishing waders become worn and cracked, try covering worn spots and cracks with tire paint. This type of paint won't crack and its pliable.

Your waders so treated will serve you for several more seasons.

LOOSENING TENT ROPES
Loosening tent ropes that have become wet can be a chore. Make such work easier by digging a 6-inch hole on the tent side of each pole. Then as you slide the poles into the holes the ropes become loosened.

ANSWERS: All should be YES except the answers to 1 and 2.

SCORING:
15 correct answers: Whether you are manning the bar, serving tea or working in a restaurant, you are a pleasure.
8 to 14 correct answers: This can only be called a fair score, for any one error can make the difference between a pleasant meal and a failure.
0 to 7 correct answers: TERRIBLE. Don't you know -- or don't you care?

IN MEMORY OF

MRS. J. D. LINK

Many hearts were saddened by the death of Mrs. Link. She was a life long resident of Milam County.

Her life was earnest, simple and unassuming. She had enjoyed her children, grandchildren and great grandchildren. This was a great privilege to her in her declining years.

Perhaps the outstanding trait of her Christian life was her love for her family and friends.

Even though she has gone away, we can still share the many pleasant memories of her life. In her eighty-six years of living she has made the "Sun a little brighter," "the bridge a little stronger and the road a little smoother because she has passed our way."

Most beautiful things of life come by twos, threes, dozens and hundreds. Plenty of roses, stars, sunsets, rainbows, brothers, sisters, aunts and cousins, but only "one mother in the whole world."

I think the poets words would speak her thoughts.

"Just let me live in a house, By the side of the road and, Be a friend to man."

Indeed of her, this may be said, she has been a friend to man. "One Who Loved Her."

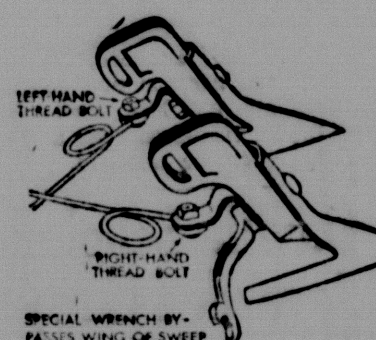

KEEP POSSESSIONS SAFE

Small objects sometimes are lost overboard in rowboats, or other small craft, during rough weather. Keep such valuables safe by screwing, or nailing, the metal top of a widemouth mason jar to the underside of a boat seat. Then place your keepsakes inside the jar and screw it to the top that you fastened under seat.

Not only will your valuables be out of the weather but they'll also be off the floor, partially hidden and out of harm's way.
